### St. Mother Teresa

**St. Mother Teresa of Calcutta** was a Catholic nun, who in 1950 founded the Missionaries of Charity. She was canonized on 4 September 2016, and the anniversary of her death (5 September) is her Feast day.

I share this beautiful example told by Mother Teresa herself, of a man who was brought out of darkness into the light. One day in Melbourne, Australia, she visited a poor man whom nobody knew existed. The room in which he was living was in a terrible state of untidiness and neglect. There was no light in the room. The man hardly ever opened the blinds. He hadn't had a friend in the world. She started to clean and tidy the room. At first he protested, saying, "Leave it alone. It's all right as it is." But she went ahead anyway. Under a pile of rubbish, she found a beautiful oil lamp but it was covered with dirt. She cleaned and polished it. Then she asked him, "How come you never light the lamp?" "Why should I light it?" he replied. "No one ever comes to see me. I never see anybody." "Will you promise to light it if one of my sisters comes to see you?" "Yes," he replied. "If I hear a human voice I'll light the lamp." Two of Mother Teresa's nuns began to visit him on a regular basis. Things gradually improved for him. Then one day he said to the nuns, "Sisters, I'll be able to manage on my own from now on. But do me a favor. Tell that first Sister, who came to see me, that the light she lit in my life is still burning." Happy Feast Day.

### Teachers' Day

From giving us a purpose to setting us up as successful citizens of the world, Teachers inspire in us a drive to do well and succeed in life. To

recognize this hard work of our mentors and gurus, Teachers' Day or *Shikshak Divas* is celebrated in India with great pomp. In India, the day is marked on the birthday of Dr. Sarvapalli Radhakrishnan who was a highly-respected teacher, philosopher and prolific statesman. Dr. Radhakrishnan went on to become the second President of India (1962-1967) and was of the opinion that "Teachers should be the best minds in the country." Let us salute our Teachers.

### Sapiential Wisdom

Recently Archbishop Menampampil was asked by Ms. Nirmala Carvalho of AsiaNews: "The Pope said in Canada that today indigenous people have more to teach us about caring and protecting the family. Is it true today in India too?" Archbishop replied: "Pope Francis has amazing expressions like the 'sapiential wisdom' of the masses and ordinary believers. It is in line with this belief that we can say that indigenous communities the world

over have something to teach today's sophisticated society, namely a sense of community, equality, truthfulness, family values, social solidarity, openness to mutual correction, and respect for Nature. They seem to hear more clearly the cry of Mother Earth against our society's 'consumeristic excesses'. Most of all, indigenous communities, unburdened with the memories of centuries of self-interested struggles among sophisticated societies, are ready witnesses to the 'genuine human values' of sincerity, sympathetic understanding, and committed solidarity. They have much to teach societies that consider themselves more advanced. Hence, we pray that the Holy Father's voice is not lost among the dominant social philosophies that echo round the world." **+Lumen, CSC**

## EDITORIAL

Teachers Day celebrated on the fifth of September in our country provides us an opportunity to focus our attention on Teachers and their vocation.

Teaching used to be considered our forte, although one can't anymore be sure if that's still the case. Whatever

## Teachers Day Thoughts!

that, the teaching-learning environment is familiar to us. Even if we are not directly involved in teaching, we know well enough how demanding a profession teaching is. And as time passes, it gets more demanding.

Let's focus on teaching in Schools. If teaching so-called 'normal' children is a challenging job, in the case of special

children – those that are challenged either physically, mentally, or intellectually, it's a thousand times harder. A casual chat about this with the Sisters at Ferrando Rehabilitation Centre, an Institution of the Missionary Sisters of Mary Help of Christians in our Diocese that runs a School for children with special needs, will make one aware of how demanding a task it is to teach special children. Such cases, the Sisters emphasize, are increasing at alarming proportions. More and more children today need treatment for speech impediments, hyperactivity, cerebral atrophy, etc. The reason for this rise in cases needs another discussion and so we leave it at that.

With RTE proposing Inclusive education for children with special needs, the task of all Teachers has become demanding in a new manner.

By and large, our Institutions get good results and that's perhaps a reflection of the commitment of the Teachers in our Schools, although we are aware that results alone cannot be the index of their commitment and quality.

In Tripura, there has been a historic case involving Teachers, in which 10,323 Teachers lost their jobs and livelihood overnight. We as a body so much involved in teacher-related activities perhaps ought to have lent appropriate support to them in their moment of vulnerability.

The fishermen's struggle for justice, currently on in the southern part of the country, spearheaded by Bishops and Catholic Priests, comes to mind.

Happy Teachers Day to all Teachers.

### AMBASSA PARISH

#### Day of Grandparents and the Elderly

*"In old age they will still bear fruit" (Psalm 92:15)*

Ambassa (Tripura) 24 July, 2022: Ambassa Parish

celebrated Grandparents day and felicitated around 40 of them. We hear a number of times the catchy phrase among the religious, priests and church circles 'growing old gracefully'. The more developed societies have

opened more and more homes for the aged to dump the elderly people, because they become a burden for the family members. Fr. Ivan D'Silva, the Parish Priest, one week earlier discussed with the evangelization committee of the parish the logistics of the celebration. In the meeting it was suggested that all those who are above 75 years of age will be called to the parish, be honored with gifts, and offer them a good lunch. So they participated in the Sunday Holy Mass and they were felicitated after the Mass. In the homily Fr. Ivan called on the faithful to pray for the Grandparents. He said, "Nowadays people have

become smart because of the mobile phone but we have become dull with respect to our elderly people". He further added, "When the parents begin to limp, when they begin to complain of aches and pains, when they begin to live on medicines, the youngsters keep far away from them because they become a nuisance in the family". During the felicitation one of the elderly people Mr. Nagendra Marak was called to speak a few words. Mr. Marak said, "I never expected that I would be called to speak, but I am grateful to our parish leaders, at the age of 80 I was honored and called to speak. I am pleased with this gesture of love and I feel I am still strong enough to spread the Word of God". At the end they were served a sumptuous meal.
